PANTRY CONDIMENT KIT

Hunger is on the rise. Nearly 1 million people in New Jersey are food insecure, including over 260,000 children. Overall, this is a 22% increase since last year and for kids it's a 33% increase. This staggering rise is due to the expiration of pandemic-related federal safety nets, inflation and rising food prices, and the failure of wages to keep up with cost of living, which is particularly high in New Jersey.
